Take Care of Your BRAIN!

We all know that it's important to exercise, but we don't always want to do it. Some people think that exercising every day is too hard, or that it takes too long. They think they don't have time to exercise every day.

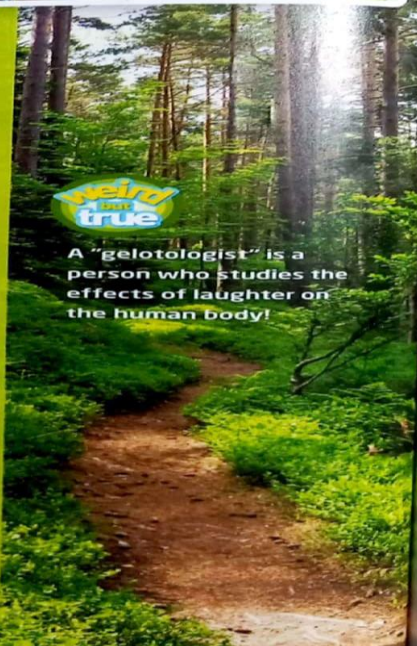

Well, here's some good news! If you exercise for only ten minutes a day, your body *and* your brain will feel better! In fact, some scientists believe that ten minutes of exercise every day can make you think faster and smarter!

Exercise isn't the only thing that's good for your brain. Scientists believe that spending time outside is also great for your brain and your body. They know that your brain relaxes when you're outdoors in a natural place like a forest. Some scientists think people should take a "forest bath," or spend time in an outdoor place, whenever they can.

Even laughing is good for your brain! When you laugh, especially if you laugh out loud, your brain gets more blood than when you're sad! Your whole body can feel better for up to 45 minutes after a good laugh!

Think about it. Are you taking good care of your brain? Do you get enough exercise? Do you spend enough time outdoors? Do you laugh enough?

Taking Care

CHORUS

**I love taking care of my pets.
I love taking care of my family.
I love taking care of them all.
I'm happy that there are so many!**

I love taking care of my pets.
I love to pick them up, and hug them, too.
But before I get to play with my pets,
I have some work to do.

I have to comb my cat, feed my dog,
protect my bird, and pick up my frog.
I have to wash my goat, brush my horse,
And I can't forget to bathe my snake, of course.

CHORUS

I love taking care of my family.
I love to hug them, too.
But before I get to play with my family,
I have some work to do.

I have to read to my sister,
take care of my brothers,
and hold hands with my grandmother.
I have to teach my brothers their 1, 2, 3's
and carry my family's new baby.

I love taking care of my pets.
I love taking care of my family.
After all my work is done,
I get to have some fun with my...
cat and dog, bird and frog,
goat and horse, and my snake, of course!
My sisters and my brothers, my grandmother,
and even my family's new baby!
