PROPÓSITO

Familiarizar y practicar una prueba tipo ICFES.

ACTIVIDAD 1 (INDAGACIÓN)

¿Qué se evalúa en las pruebas Saber 11°?

El examen se realiza en 2 sesiones de 4 horas y 30 minutos cada una y se divide en 5 diferentes temas o sub pruebas: lectura crítica, matemáticas, sociales y ciudadana, ciencias naturales e inglés.

La evaluación de los temas se realiza en dos partes, una para cada sesión, esto no aplica para la sub prueba de lectura crítica e inglés, que tienen solo una sección. Así como el tiempo de las dos sesiones varía para algunas áreas evaluadas, el número de preguntas para cada una puede ser diferente.

ACTIVIDAD 2 (CONCEPTUALIZACIÓN)

En esta prueba se busca que el estudiante demuestre sus habilidades comunicativas a nivel de lectura y uso del lenguaje en esta lengua.

ACTIVIDAD 3 (APLICACIÓN Y EVALUACIÓN)

COMPRESIÓN DE TEXTOS

EARTH

In astronomy mythology, her Greek name was Gaea. Earth was the mother of the mountains, valleys, streams and all other land formations. She was married to Uranus.

The Earth is the biggest of all the terrestrial planets. A terrestrial planet is a dense planet found in the inner Solar System. The diameter of Earth is 7,926 miles. The circumference measured around the equator is 24,901 miles. There are currently almost 7 billion people living on the Earth. About 30% of the Earth's surface is covered with land, while about 70% is covered by oceans.

Our planet is an oasis of life in an otherwise desolate universe. The Earth's temperature, weather, atmosphere, and many other factors are just right to keep us alive.
